

Title of enhanced CPD	Delivering better oral health to the ageing population
Learning content	This joint presentation will give dental professionals insight into how they can meet the oral care needs of their patients and local community to ensure they age well. Examples of working differently through primary care networks will open up opportunities to ensure prevention is as important at seventy years of age as it is at seven.
Learning provider	Colgate Professional
Aim	This joint session delivered by NHS England and the Greater Manchester Local Dental Network will explore the role of the primary care dental practice in maintaining and improving the oral health of the ageing population
Learning outcomes:	<ul style="list-style-type: none"> • Recognise the increasing need for improving oral health and reducing inequalities in the ageing population • Be aware of supporting care pathways to help identify oral health risks and manage clinical care in the ageing population • Understand how the Greater Manchester 'Smiles Better' Mouth Care Toolkit is used as a resource to deliver better oral health through NHS and social care to the ageing population in care homes and how this can be adapted for patients in all settings
Anticipated GDC Development Outcome(s)	<p>B. Effective management of self and effective management of others in the dental team, in the interests of patients; providing constructive leadership where appropriate</p> <p>C. Taking a preventive approach and providing appropriate oral health advice</p>
Dental professional 'Active Participation' required to meet enhanced CPD requirement	<ul style="list-style-type: none"> • Attend the entire lecture • Completion and submission of an assessment of learning and participation (online feedback) • Complete reflective question(s) on reverse of certificate
Presentation content QA	The presentation has been developed by the speakers to ensure relevance, accuracy and quality
Speaker(s) QA	The speakers are experienced in their fields. Eric Rooney is the Deputy Chief Dental Officer, NHS England and Mohsan Ahmad is a principal dental practitioner and Chair of GM LDN
Attendance confirmation	Scanned into the session and followed up with an email linking to the assessment of learning
How does the presentation content relate to the development outcome(s)	The presentation will cover the increasing need for improving oral health and reducing inequalities in the ageing population, review supporting care pathways to help identify oral health risks and manage clinical care in the ageing population and provide insight into the Greater Manchester 'Smiles Better' Mouth Care Toolkit is used as a resource to deliver better oral health through NHS

	and social care to the ageing population in care homes and how this can be adapted for patients in all settings
Evidence of enhanced CPD	Electronic enhanced CPD certificate in line with all GDC requirements
Number of enhanced hours	Anticipated hours 1 hr. Actual hours will be recorded on the certificate as provided by the dental professional on assessment of learning and participation (online feedback)
